LA FERA, FÀBRICA DIGITAL

La Fera is a new space set up to launch Catalan-language projects in the digital universe of platforms, giving them resources that enable them to grow, reach new audiences and make them sustainable and self-sufficient. In short, without co-opting or determining them and with the aim of expanding them to an international level.

La Fera is a community mechanism that can be reproduced in small- and medium-sized languages from around the world looking for allies and references in other countries for working on common digital projects.
